 No. 1 of 1 Copies, Series OC-4

45 No. S-057
 Date 060945Z
 From CJTF-7 Eniwetok
 To UWFJA/CHAIRMAN, AEC, Wash, D.C.
 Subj This is YANKEE plus 36 advisory. in four parts. I. No date yet which can revise yield figure of approximately 14 megatons given by preliminary shock time of arrival. Preliminary value of electromagnetic measurements of time interval. This value not checked by other means. Recovery proceeding according to plan. II. Aerial survey of northern Marshalls indicates no significant fallout on inhabited areas. KWAJ Guam air route closed as routine precautionary measure but there has been no other interference with air or surface transportation routes and none is forecast. Cloud traversed to the northeast generally along line Bikini to Bikar. III. Curtiss is returning to Eniwetok tonight to begin loading of test materials to be returned to ZI. AM proceeding with rollup plans for Bikini. NECTAR is in position and am maintaining task force on 12 hr capability. IV. Will send more data in Yankee plus 6 hr advisory
